Dear Fellow Stockholder,

Your Board of Directors has unanimously recommended that stockholders vote FOR all of the proposals on the agenda for the important Annual Meeting of the stockholders of Chimera Investment Corporation to be held on October 23, 2014.

Your vote is important, no matter how many or how few shares you may own. Please vote TODAY to ensure that your votes are validly received prior to the Annual Meeting.

In particular, we believe that the diligent efforts of the independent members of our Board of Directors merit voting FOR the re-election of all of the independent members of our Board of Directors. The actions of the independent members of our Board of Directors include oversight of the positive investment performance of Chimera despite the challenges posed during the period that it was not current on its filings with the Securities and Exchange Commission as well as conscientious efforts to remedy Chimera's weaknesses over internal controls.

As detailed in our recent filings with the Securities and Exchange Commission, in 2012, Chimera discovered that it needed to restate its previously issued (i) Consolidated Statements of Financial Condition included in its Annual Report on Form 10-K as of December 31, 2010 and (ii) Consolidated Statements of Operations and Comprehensive Income (Loss), Consolidated Statements of Changes in Stockholders' Equity, and Consolidated Statements of Cash Flows for the year ended December 31, 2010, including the cumulative effect of the Restatement on Retained earnings (accumulated deficit) (the "Restatement"). We have completed the Restatement and are now current on all of our filings with the Securities and Exchange Commission.

In connection with the Restatement, we identified several material weaknesses in our internal controls over financial reporting. We believe that we have largely addressed the material weaknesses identified to date. As detailed below, we have strengthened our financial and accounting operations and staff, replaced our former auditor, and are implementing a third party vendor's accounting software. The accounting software implementation is the final remediation action and is designed to reduce overreliance on spreadsheets and provide further enhancement of review and approval controls.

We have been in the process of implementing software over the past six months and expect the complete implementation of this software and the related systems to be fully operational in the first quarter of 2015. Our Audit Committee, which is comprised of each of the independent members of our Board of Directors, has overseen the remediation of these internal controls and implementation of the upgraded systems and processes.

In addition, since October 31, 2013, our Audit Committee has supervised the filing of two annual reports on Form 10-K and seven quarterly reports on Form 10-Q. This includes the most recent quarterly report on Form 10-Q, which was filed with the Securities and Exchange Commission on a timely basis. Among other measures, the independent members of our Board of Directors have also taken the following decisive actions:

Conducted a Full Review of the Restatement

- Commissioned an independent investigation into the Restatement by the law firm Dechert LLP;
- Approved the hiring of Dechert LLP's forensic accounting advisors FTI Consulting in the independent investigation into the Restatement;

Appointed a New Independent Registered Accounting Firm

- Dismissed Deloitte & Touche LLP as our independent registered public accounting firm;
- Approved the appointment of Ernst & Young LLP as our new independent registered public accounting firm;

Strengthened our Financial and Accounting Operations

- Appointed Robert Colligan as our Chief Financial Officer;
- Approved of an entire re-staffing of the accounting department since the beginning of 2013;
- Oversaw the establishment of a middle office department focused on the review, testing and validation of our asset valuations;

Protected Shareholder Value

- Strengthened company rights and improved flexibility in our management agreement, including achievement of a management fee reduction;
- Initiated pursuit of company rights in accordance with our dispute resolution agreement with our former auditors;

Enhanced our Infrastructure

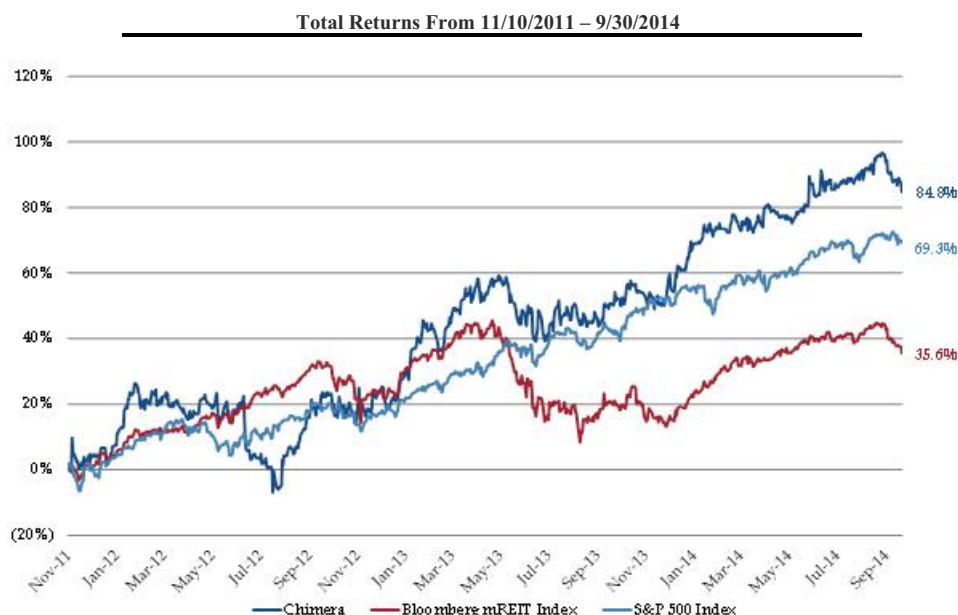

- Directed the update of numerous policies and procedures and implementation of information technology and accounting systems designed to remediate the material weaknesses;
- Oversaw the expansion of our manager's information technology department, including its appointment of a chief technology officer;

Expanded Shareholder Transparency

- Commenced providing supplemental financial information on our website;
- Enhanced the disclosures contained in our filings with the Securities and Exchange Commission; and
- Engaged in outreach programs to our shareholders to address concerns.

During this period, the independent members of our Board of Directors have declared both regular dividends each quarter as well as an additional one-time special dividend, which aggregate to a per share amount of \$1.30. Additionally, the independent members of our Board of Directors have ensured that our common stock remains listed for trading on the New York Stock Exchange.

Furthermore, under the active guidance and direction of the independent members of our Board of Directors, we have been able to earn strong return despite the challenge of operating until recently without the benefit of current financial statements. Our total returns over this period are detailed below:
